How much impact can a single act of kindness have?

- KindCards have exchanged hands in 7+ countries around the world!
- Site built with React / Node.js.
- Leaflet.js and OpenStreetMap API used to track card locations.

EXPERIENCE

Ibotta | Remote

Sep 2021 - Present

Senior Fullstack Engineer

Fullstack Engineer (Sep 2021 - Jun 2023)

- Tech lead for projects across various business domains, working on both internal and external applications used by millions of monthly users.
- Evangelist for frontend observability and alerting, testing, and CI/CD automation.
- Mentor to associate engineers in tooling, problem-solving approaches, writing clean and maintainable code, and career development.
- Technologies most used: React, TypeScript, React/Tanstack Query, AWS, Material UI, Storybook, GitHub Actions, DataDog, LaunchDarkly.

CLMBR | Denver, CO

July 2021 - Sep 2021

Frontend Developer

- Shipped code daily for new features of connected fitness startup's internal CMS system.
- Quickly became an in-house expert on inherited legacy code created by multiple third-party agencies. Wrote documentation to support future engineers.
- Tech stack of React, Next.js, TypeScript, and Firebase as a serverless environment to support large-scale applications.

Open Media Foundation | Remote

Aug 2020 - July 2021

Frontend Developer

- Developed themes and custom modules in PHP and JavaScript for a portfolio of 12+ non-profit client websites.
- Collaborated with designers to recommend UX/UI solutions for new site features.
- Led product presentations and trainings with clients.

PartnerCentric, Inc. | Remote

Feb 2019 - Dec 2019

Marketing Analyst & Data Consultant

- Reported on the progress of affiliate activation campaigns through analyzing data in affiliate networks, Google Analytics, Tableau, and Excel.
- Queried data with SQL and VBA macros to optimize and automate weekly reports.
- Collaborated within internal account teams to develop, optimize, and execute client strategies.

US Peace Corps | Ancash, Perú

Apr 2016 - Jun 2018

Community Economic Development Volunteer

- Facilitated the improvement of business management skills for small businesses and producer associations, including financial management, customer service, and marketing.
- Taught entrepreneurship courses for youth and adult women, encompassing business idea generation and financial management.
- Formed and advised two community-funded and managed micro-finance savings organizations.
